The performance information quoted in this semi-annual report assumes the reinvestment of all dividend and capital gain distributions, if any, and represents past performance, which is not a guarantee of future results. The returns shown do not reflect taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. The investment return and principal value of an investment will fluctuate and, therefore, an investor’s shares, when redeemed, may be worth more or less than their original cost. Updated performance data current to the most recent month-end can be obtained by calling (877) 244-6235.
